EDUCATION & QUALIFICATIONS

Diploma in Applied Theology

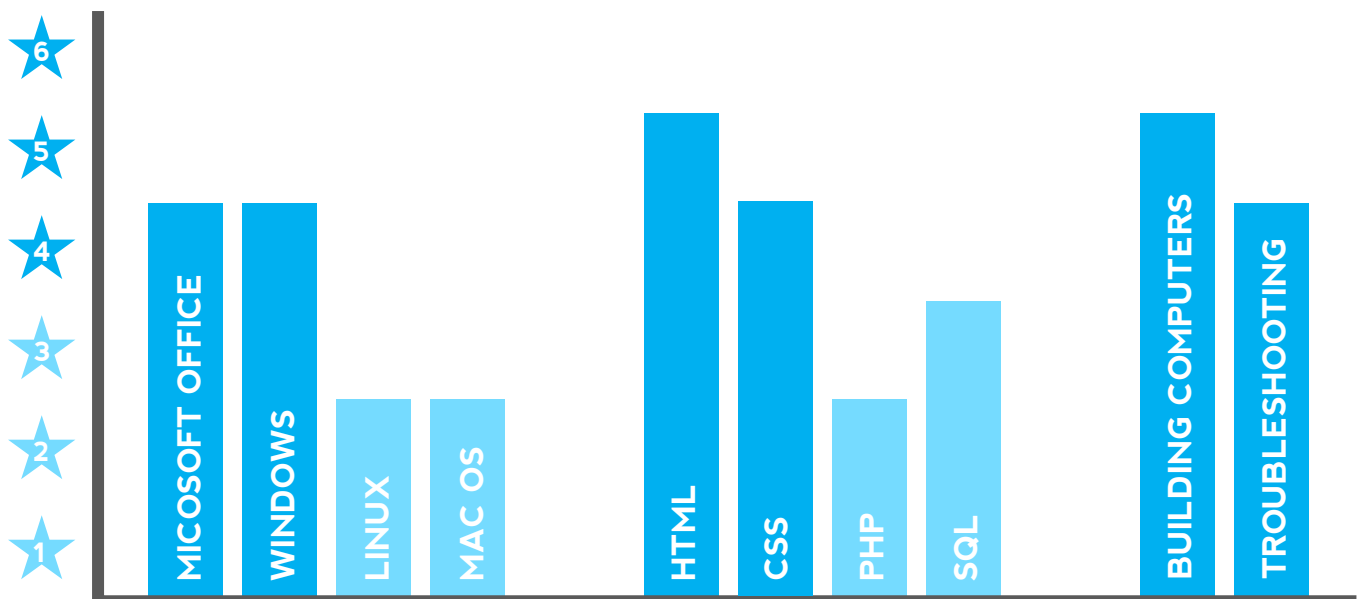

The Faith Mission Bible College, Edinburgh, United Kingdom (2012 - 2014)

Vocational Qualification in Business Information Technology

Helsinki Business College, Helsinki, Finland (2009 - 2012)

IT SKILLS

Since studying IT at school, I have continued to further my understanding in many areas, through work, individual study and hobbies. Here I have personally evaluated my skill-set.

These skills are being developed daily as I'm teaching myself. I am currently reading about HTML5, CSS, JavaScript, Git, Python, PHP and SQL. I am more focused on Front End development than Back End development. I have other minor skills which round out my effectiveness.
